

Welcome to Colma Green! The Town is expanding its efforts to encourage our community to be green and sustainable. We are introducing our first segment that highlights water conservation, energy conservation and recycling and waste reduction ideas. Please use the menu on the left hand side of the web page to view the contents of this section.

Information regarding disposal of [Expired Medication](#) or [Used Sharps](#) can be found at these links.

We will be adding additional resources in the future, so check back periodically for more information.
